Value Proposition

- ▶ CSI-Fresh is a freight forwarding company in The Netherlands and is specialized in the fruit and vegetables area.
- ▶ “one stop shop” model; allows us to offer a unique concept (handling air and container, forwarding, Cold stores (optional), transportation and customs clearance.
- ▶ Efficient work, simplification in customs processes and coupling of automated systems (reuse of data) provide significant cost savings for our clients.
- ▶ Customer portal for real time tracking and tracing and one verified source of all data.
- ▶ Products and Solutions;
 - ▶ Sea Freight
 - ▶ Airfreight
 - ▶ Customs Brokerage
 - ▶ Fiscal representation
- ▶ Founded in 2008, currently 35 customs experts in NL

Competences CSI-Fresh

- Founded by industry experts, with long history in similar industries (Airfreight/Ocean/Brokerage/Last Mile trucking) and markets (Fresh & E-commerce)
- IT driven solutions → supported by experts
- Full Commitment to the Food and Agro sector and E-commerce (B2B)
- Full control service handling 365 days a year, with fixed and flex w/h staff
- Established relations with 3rd party services for shuttling and trucking services
- Strong customs program validated and approved by Dutch Customs (valuation) teams
- Compliant to AEO and required check & controls raised by Customs
- Control tower for arrivals Rotterdam, Amsterdam, Maastricht and Liège, (BE)
- Cost and lead time reduction programs to increase profitability and service

Services

- **Truck/barge containers** from the ports in Rotterdam and Antwerp to all destinations within The Netherlands, Belgium, UK, Germany, Spain and France (with or without gen set)
- **Air freight services** for air shipments via a.o. Amsterdam
- **Customs activities** required for importing and exporting products into the European Union. Certified customs broker in NL
- **Fiscal representative** for non-Dutch based companies. As a fiscal representative we can avoid the payment of import VAT
- **Agent** on behalf of non-Dutch based companies (a.o. invoicing, factoring and quality inspections)
- **Control Tower** for the containers, which arrive in Europe (a.o. we pay the THC for obtaining the commercial releases from the carriers, maintain the contacts with carriers w.r.t. ETA's etc.)
 - Cooperation with shipping lines
 - Cooperation with cold stores (VAL activities)
 - Arrange multimodal transport (barge/train)
 - Alliance with forwarding companies
- Develop new and **Innovative supply chain solutions** for exporting and importing companies
- **Knowledge center for customers** in the fruit and vegetables area
- Organize **lobby with national authorities** to optimize the operations of our customers
- **NVWA- and veterinarian** inspections
- **AEO certified** we are authorized to scan containers

Fiscal representation (limited)

- Privilege within the Netherlands, foreign customers using Rotterdam and Amsterdam as first point of entry, for further distribution within Europe
- On importing goods into the European Union, you will pay Duty + (import) VAT
- The Netherlands has opted for a rule that you can pay the NL/VAT at 0% by means of deferring the VAT towards an EU VAT number (physical destination of the produce)
- You will have the privilege that 'We' use our Dutch (deferment) VAT number to create this entry towards your customs.
- This enables the importer to have an enormous benefit on the cash flow since they do not 'directly' pay import VAT into Europe
- Your customer (meeting our requirements) will be responsible to balance this 'reserved VAT' to the country threshold, where the 'produce' will be sold (Reported only monthly or quarterly to TAX agencies)
- Dutch receivers are excluded from this ruling, unless they have obtained art. 23. For VAT deferment (we can guide your customer to obtain, if required)

Customs brokerage

- Dedicated teams (Fruit and vegetable & E-commerce)
- Customs handling import- and export related shipments
- Specialized customs knowledge
- Partner setup for cross border services
- Knowledge center, and sparring partner for customers in Fruit and vegetable & E-commerce
- Execute meetings on behalf of our customers with governmental agencies (Food safety/Customs/Tax agency)
- Coverage of all documentation requirements
